SUMMARY

Computer Science student proficient in Core Java with strong knowledge of OOP principles, Collections, and Multithreading. Skilled in Data Structures and Algorithms using Java for efficient problem-solving. Proficient in Advanced Java technologies, including JDBC and Servlets, with experience in frameworks such as Spring Boot and Hibernate for scalable backend development.

PROJECTS

Hospital Management System

[GitHub Link](#)

Java, Spring Boot, JPA, Hibernate, MySQL

- Developed backend services for patient, doctor, and appointment management, reducing manual workload by 40%.
- Implemented a layered architecture (Controller–Service–Repository) to ensure scalability and maintainability.
- Applied Hibernate and JPA for ORM mapping, reducing boilerplate code and improving data consistency across modules.

Student Management System

[GitHub Link](#)

Java, Spring Boot, REST API, Hibernate, MySQL

- Built a Spring Boot–based backend application to manage student records with complete CRUD operations.
- Designed and implemented RESTful APIs for managing student information such as name, email, and ID.
- Applied a layered architecture (Controller–Service–Repository) to enhance scalability and maintainability.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science

CGPA: 7.7

Medi-Caps University, Indore

2022 – Present

Class XII (CBSE)

2021 – 2022

Pushpa Convent Higher Secondary School, Agar

SKILLS

Programming Languages: Java (OOP, Collections, Multithreading, JDBC, Servlets)

Frameworks & Tools: Spring Boot, Spring Data JPA, Hibernate, RESTful APIs

Databases: MySQL

CERTIFICATIONS

AWS Certified Cloud Practitioner

Amazon Web Services (2025)

AWS Certified Solutions Architect – Associate

Amazon Web Services (2025)
